## ONLINE ACCESS

that makes managing your health easier.

At Rejuv Medical, we believe in helping you realize the benefits that a healthy body and healthy lifestyle have to offer. We make it easy by helping you manage your time and maximize your experience at Rejuv Medical with various online interactive tools.

[www.RejuvMedical.com](http://www.RejuvMedical.com)

REBUILD. RESTORE. REJUV.

## Electronic Medical Records:

Rejuv Medical Records, powered by eClinical Works, has a patient portal feature that allows you to access your patient records. You can also view your prescriptions, upcoming appointments, and request future appointments. This patient portal is easy to use and is HIPAA compliant to help ensure your privacy. To access the patient portal, all you need to do is supply our front desk with your email. To login, go to [www.RejuvMedical.com](http://www.RejuvMedical.com) and click the "Patient Portal" link at the top of the page.

## MINDBODY:

We have partnered with MINDBODY to be our transactional and gym operating system. Working with MINDBODY allows us to give our patients even greater access to their account information. When you become part of the Rejuv Medical family, you will be allowed access to our MINDBODY site. This access will enable you to see your account information, book classes, make purchases and update any of your information that might change.

Go to [www.mindbodyonline.com](http://www.mindbodyonline.com), select "log-in" and then search for Rejuv Medical. It will ask you if you "are returning to site" or "new user," select new user and sign in using the same email and first name that you used on your Rejuv Medical paperwork. After doing this, you should be allowed access to your account and should be able to use MINDBODY and all of its features.

## MINDBODY Connect:

Are you on the go? Are you busy? MINDBODY has made registering for boot camps and studio classes even easier with the MINDBODY Connect App. Just download this app onto your smartphone or tablet and control your MINDBODY account from the palm of your hand. **For this app to work, you must first register through Rejuv Medical on MINDBODY online.**

## Rejuv University:

Rejuv University is our online educational portal for all patients of Rejuv Medical. This website allows our patients to have access to great videos, written materials and programs to help everyone make even greater strides to their goals. You can advance through different levels and earn new honors.

You will receive your invite through an email upon sign-up with Rejuv Medical. Sometimes the email gets lost, so please check your inbox, spam or junk mail folders for an email from Rejuv Medical.

## MYZONE®:

MYZONE® is the only exercise tracking system in the world that is able to provide real-time feedback of exercise intensity as well as wirelessly upload exercise data that has been stored, making the technology simple and convenient for everyone to use. This device is your very own "workout companion". ([www.myzone.org](http://www.myzone.org))
